This year's theme for the Chicago Artists Month is "Crossing Borders" and CWCA is crossing the Border to Addison.

"Crossing Borders - actual physical borders, or conceptual, genre or societal borders - can be liberating, creative, transgressive, stimulating, hazardous, affirmative or all of the above. Often, crossing borders is life-changing. CAM encourages participants to plan their program as a mash-up, crossing borders literally and figuratively - between neighborhoods and nations, within artistic genres, media and social scenes." –
